

RingSafe®

RingSafe® is the perfect packaging for medium size volumes. Take your pick from the economical series with round sizes.

Key Benefits

- Liquid tight
- Withstands hot filling up to 95°C
- Easy-to-open, snap-on lid
- Same lid fits several volumes
- Basic tamper evidence
- Easy-to-recycle being monomaterial
- Clear lid and pot for visible content
- Perfect brand display with In-Mould Labelling for the round shape

Practical and economical

This packaging solution is a medium size range offering volumes from 800 ml to 1,092 ml. It is a perfect fit and a cost efficient solution for many food products like salads, dairy products, candy and seafood. A protective collar ensures that the lid remains in place during transport.

RingSafe® withstands hot filling up to 95°C and one lid fits several volumes. All are made of a single material so recycling is easy.

Handy at home

All pots in the range have easy-to-open, snap-on lids and basic tamper evidence is standard. When the original content has been savoured RingSafe® is also a handy pot for household purposes: it is safe to use in the microwave oven, the dishwasher and the freezer.

Add on with RingSafe® round shape

The range offers a solution with additional options: with the round RingSafe® pot 800 ml you can also have an optimised tamper evidence tab.

Fantastic looks and feel

RingSafe® makes your products look fantastic on the shelves with its high quality decoration features. If you wish to display what is inside – this could be colourful content like confectionery or tempting seafood - you have the option of a clear lid and a clear pot for visible content.

Expose your brand and show your product in the best possible way with illustrations, text and images – In-Mould Labelling makes it possible.

Looking for something smaller?

If you are looking for even smaller sizes or need a pot for blast-freezing, you may want to take a look at our RingLock® line which belongs to the same family as RingSafe®.

RingSafe®

Volume under lid (ml)	Dim. (mm)	Base	Lids			
			Snap-on	Membrane	Decoration	TE
800	Ø122	677	625	626	IML	Yes
1092	Ø122	653	625	626	IML	Yes

IML = In-Mould Labelling **TE** = Tamper Evidence
