VENDING CUPS

Any vending machine on the market works to perfection with our range of vending cups. It is designed to fit any model and all cups will pass perfectly through the vending machine. The vending cups have been developed according to our eco-design principles which means that their weight is particularly low and therefore each cup requires less virgin material.

Key benefits

- Designed for cup holders
- Designed for vending machines
- Available in four different sizes
- Choose from two types of embossed pattern
- Choose from various pack configurations
- Also available in PS/Calcium carbonate for reduced carbon footprint

CERTIFICATIONS

Quality control, food safety and top hygiene standards are among our core competences. When you opt for RPC Superfos to supply you with drinking cups or packaging, you get certified quality, safety and responsibility.

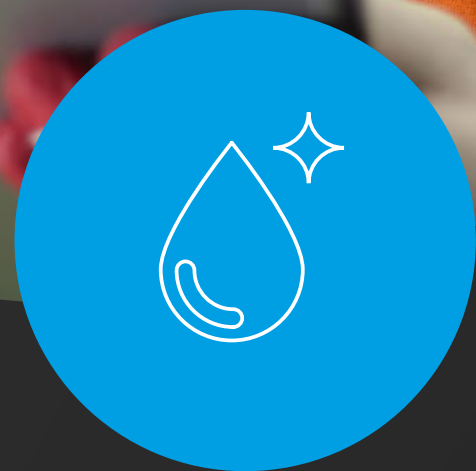

Our factories hold certificates issued by independent Certification Institutes documenting that we fulfil the requirements of ISO 9001 Quality Management System. Key areas are management processes and customer focus.

Nearly all RPC Superfos factories hold BRC certificates issued by British Retail Consortium, including RPC Superfos Lidköping, Sweden. The certificates document that we continuously meet an internationally recognised packaging standard and best practice regarding product specifications, supplier approval, traceability, management of incidents and product recalls.

We make sustainable and environmentally friendly choices as an inherent part of our daily management. Most of our factories hold ISO 14001 certificates issued by independent Certification Institutes certifying that we constantly measure and improve the environmental impact of our activities across the whole supply chain.

ABOUT RPC SUPERFOS

RPC Superfos designs, develops and manufactures innovative plastic packaging solutions. We offer injection moulded and thermoformed packs and drinking cups with superior end user appeal. Our solutions add value to your products, no matter what or where your market is.

Every day, RPC Superfos strives to protect the environment. We continuously develop new materials and designs to minimise the weight of our products for the benefit of a less heavy transportation. In this way, we reduce the environmental impact and the carbon footprint – ours plus the one of our customers.

More than 2,400 employees in +35 countries work every day to meet the needs of our customers, uniting cutting-edge technology with first class professional service and support. RPC Superfos manages a complex supply chain with millions of packaging units produced, stored and shipped every year. RPC Superfos is fully owned by the British RPC Group Plc.
