

R Range

The R range of plastic containers comes in classic square and rectangular shapes. These reliable containers offer excellent product protection, as well as great end-user benefits such as easy handling.

Key Benefits

- Practical and versatile
- Made of recyclable material
- Classic shapes: square and rectangular
- Great stackability
- Same lid fits several volumes
- Easy to empty
- Reduces food waste

Ready and reliable

R range containers give you a ready and reliable packaging solution available in rectangular or square shape. The versatile off-the-shelf solution is a safe bet for food products such as ice cream, salads and sandwich fillings. The R range packs are made of one single material and are easily recyclable. If you are interested in a decorated version or other colours, please ask for details of the various options.

Several sizes

From a big 10 litres container to a handy 1,250 ml pack, you can choose between several sizes in the R range square. Self-adhesive labelling PE is available for the 2.55 litres container. For the 10 litres size a plastic handle is available. The R range rectangular is supplied from 1,250 ml to 4 litres.

Supports work in the kitchen

The R range is popular among your end-users, both those working in professional kitchens and people preparing food at home. The containers are handy and, because they are easy to stack, working space in the kitchen is optimised – an important benefit for end-users. In addition, the containers are easy to open and re-close and suitable for use in dish washers, freezers and microwave ovens.

Minimises food waste

The classic shape – rectangular or square – makes it hassle-free to use all content and therefore completely empty the container. With no hidden remains, the containers contribute to reducing food waste. The pots are made from opaque freezer grade polypropylene and of a quality that makes them suitable for multiple re-use.

R Range
