EasyDose® is the perfect aid for everyday doings

EasyDose® is an outstanding household container for any product which should be dosed exactly. The special feature of EasyDose® is an integrated automatic multi-dosing system making sure that the exact, desired quantity comes out of the container every time it is used.

In the everyday life of many people there are numerous products which are needed in precise doses. Just think of washing powder, baby food, pet food, rice, coffee and cooking ingredients at a large. With EasyDose®, there is no need to use measure cups, spoons or scales.

Enough is enough

In the long run EasyDose® means savings on the household budget because it prevents over-consumption. Why waste a valuable product by using more of it than required, when an easy solution is at hand? Concerning washing powder the environment also benefits from the qualities of EasyDose® because no superfluous amount of the product ends up in nature. EasyDose® is suitable for powder, granular or pellets. The container is filled at home at the leisure of the consumer.

Designed for easy use

It is absolutely uncomplicated to use EasyDose®. Its design has been carefully developed to meet the highest standard for an ergonomic container. The result is a perfectly balanced, naturally shaped container that can be used with one hand only. It is convenient for all from children to elderly people; it is perfect for the visually impaired and for people with feeble hands. EasyDose® guarantees hassle-free dosage for everybody, time after time.

Household item or a marketing tool

As a B2C company selling and/or producing products in the form of powder, granular or pellets you may want to apply EasyDose® as a free gift during a special campaign period, rewarding customer loyalty. It will enhance your brand position and consumers will appreciate that you provide them with an EasyDose® container at the time of a bulk product purchase.

As a retailer of household items, you will find that EasyDose® quickly takes the place of a favourite, sought after product. It will make your range of products even more attractive.

RPC Superfos delivers EasyDose® in two sizes: 1,5L and 2,2L. The lid and plates are available in a multitude of colours. Decorations can be made with in-Mould Labelling.
