## UniPak Round

A reliable packaging

Whether you are looking for a square or round shape for your packaging you will most likely find what you are after in our UniPak range. It keeps your costs down: several pots match each lid diameter so you only need to stock one versatile type of lid for a range of sizes. With UniPak, there is no point in reinventing the wheel: Your flexible packaging solution is ready at hand.

Size (mm)	Base	Lid	Volume under lid (Fl Oz)
Ø95	5015	2810	6,1
Ø95	5016	2810	8,1
Ø95	5011	2810	9,8
Ø95	5097	2810	10,6
Ø95	5210	2810	12,3
Ø95	5012	2810	17,5
Ø95	5094	2810	18,6
Ø109	5122	2920	20,3
Ø118	5028	2820	10,1
Ø118	5226	2820	12,2
Ø118	5220	2820	16,2
Ø118	5221	2820	19,1
Ø118	5022	2820	29,4
Ø133	5030	2830	33,8
Ø148	5051	382	38,8
Ø148	5054	382	52,4

## UniPak Square

Boost your logistics

UniPak is cleverly designed and allows you to optimise the use of every single pallet and thereby reduces warehouse costs. At the filling line, UniPak withstands both hot filling and blast freezing; during transport, a protective collar protects the UniPak lid and improves the stability of the pots. Make the best of your brand and product with In-Mould Labelling.

Size (mm)	Base	Lid	Volume under lid (Fl Oz)
129x129	5621	2520	20,3
129x129	5624	2520	38,8
195x195	5541	2540	51
195x195	5542	2540	68
195x195	5543	2540	85
195x195	5544	2540	101
195x195	5546	2540	135
195x195	5548	2540	169

## SuperFlex®

Truly versatile

SuperFlex® is a popular packaging solution in many industries. Its qualities are widely appreciated for products as different as building materials and baking powder; processed food and paint. The user-friendly, multipurpose SuperFlex® container keeps the promise included in its name. It is a great, liquid tight option, suitable for hot or cold filling and even freezer safe.

Size (mm)	Base	Lid	Volume under lid (Fl Oz)
Ø194	2191	177	88
Ø194	2192	177	101
Ø194	2201	177	118
Ø194	203	177	128

## SuperLift®

Striking look with handle-on-collar

An attractive design and high functionality are some of the benefits that characterise the SuperLift® packaging solution. A considerable range of sizes is available and the lid types are all-round: One single type fits many volumes. Handle-on-collar is a decoration friendly solution for offset decoration or In-Mould Labelling. Tamper Evidence is standard.

Size (mm)	Base	Lid	Volume under lid (Fl Oz)
Ø170	8020	2840	71
Ø170	8027	2840	86
Ø198	8032	1631	105
Ø198	8038	1631	128
Ø226	8044	1671	156
Ø226	8052	1671	186
Ø226	8058	1671	196

## SuperLift® Extra

Highly functional

SuperLift® Extra is a great packaging choice for most products. It is handy and well-designed and a robust container choice. SuperLift® Extra is easy to empty without dripping, makes an audible click to signal correct re-closure and is 100 per cent liquid tight. It is also shock resistant and suitable for tinting machines. Steel handle is standard.

Size (mm)	Base	Lid	Volume under lid (Fl Oz)
Ø192	737	736	142
Ø220	806	805	186

Additional sizes of each range are available. If these product lines do not meet your needs, try a customised packaging solution for one-of-a-kind impact
